USE A PADDLE LEASH FOR CONVENIENCE & SAFETY

Assorted Paddle Leashes:

Shipped direct from us when you use our online authorized retailer:

A paddle leash will keep paddle & kayak together in wind & surf. Your grip on your paddle links you to your kayak after capsize. Use paddle leash in surf & wind (not in whitewater) to maintain control of your kayak. Even if you let go, a paddle on a leash will act as an anchor to slow your kayak down. Great for beginners. Handy for fishing and diving. Can also be used for Fishing Pole Leash!

MOUNT A DIVE FLAG ON YOUR KAYAK FOR SAFETY

Dive Flag Mount:

Shipped direct from us when you use our online authorized retailer: CCNOW

Divers need to be seen; heck it's the law! Fly your dive flag high and proud while you are down below. Any one who Scuba dives snorkels, free dives or even for swimmers, should have a flag mounted securely to their kayak. Not only will a dive flag provide you with a safety zone around your kayak from power-boats, but you will not have misguided Samaritans towing your kayak away, as abandoned, while you are underwater. Dive flag and pole not included, get at scuba shop. Fits most kayaks, satisfaction guaranteed.
